NOTICE

If you find nothing in this catalog to interest you, I would be pleased if you would hand it to an interested person if you can. **REMEMBER** that if I do not hear from you for two or three sales, **YOUR NAME IS SUBJECT TO WITHDRAWAL** from my mailing list.

THE BEST WAY to insure yourself, is to **SEND IN SOME BIDS**. I want to thank my many customers for our pleasant dealings, the words of general satisfaction received, and the prompt remittances. Some collectors bought coins from me 15 years ago, and are still with me in my sales each month. Especially do I thank you.

Terms—Prompt cash settlement after the sale, remittance to be made by money order, draft, check, or in any way most convenient to purchaser. Stamps accepted under one dollar only.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

New bidders must send references or a deposit of at least 25% of total bids; otherwise their bids cannot be accepted.

To those known to me and who have already established credit, I will send out purchases on open account. In appreciation of this courtesy, the purchaser remits promptly.

Coins will be bought as much below your bids as possible, as this is competitive bidding carried out in good faith.

When two or more unlimited bids are received on the same lot, the first one received gets the lot at a small advance above the highest actual bid. Only the **first** unlimited bid can be executed.

If you do not know how much to bid on any item, write me and I shall be glad to inform you as to its value.

Receipted bills are not sent out after your remittance as this is unnec-

essary. Your check, draft, or money order itself is a receipt. However, if a 2-cent stamp is enclosed we will send receipt.

KEEP ON MY MAILING LIST and keep your address up-to-date by sending in some bids. If you find nothing to bid on, request next auction list simply by postal card to insure your getting it. You will find a great variety of numismatic material in this sale, some choice and rare items, and will be well paid for giving the contents of this catalog your careful perusal.

Bids must reach me by the Morning of Nov. 29. Mail them in time, so as to avoid disappointment. At each sale some bids arrive too late to be executed.

Collectors of experience find that not all dealers classify coins alike.

My classifications and descriptions are based on knowledge gained through 15 years of earnest dealing in coins. I have endeavored to refrain from over-rating the quality of a lot, which is so common. I believe that the word "**RARE**" should not be over-worked.

Please remember my strong guarantee. If goods are not satisfactory (you are to be the judge), you are at liberty to return them without any danger of offending.

WHAT OTHERS HAVE TO SAY

On file in my office are one thousand signed testimonials, all unsolicited; these may be inspected by visitors. Here are a few that were just recently received:

"Everything you shipped me was perfectly satisfactory as usual. You certainly do grade your coins well as you have never shipped me a single piece that was not fully up to my expectations. It is a pleasure indeed to do business with a reliable dealer such as you and I look forward to obtaining many more valuable pieces from your sales."—Calif.

"The pattern \$10 pieces sent me were just as you represented them, and I am more than pleased with their condition."—Mo.

"I am nearly tickled pink to think I got two numbers I most coveted. Thank you for your fairness in describing the coins and the ratings given."—Ill.

"I wish to congratulate you on the excellent descriptions you gave my coins."—Calif.

"I have received check for coins sold and am very much satisfied with same. Thank you for your promptness."—Ia.

CONDITION OF COINS

The classifying of coins is an intricate and sometimes nerve-testing effort. Even expert numismatists are disagreed on various points. In my auction sales, it is my earnest purpose to give both buyer and seller a square deal. It is quite natural and common for an owner to over-rate the condition of his own coins, sometimes without realizing it. But when a dealer sells a coin to a customer, he should place himself in the customer's place and abide by the golden rule. I want to have my customers get what they expect, and try to represent everything fairly. Therefore, I have adopted the following definitions of conditions of coins, this feature being of the very highest importance in collecting. Please make your bids according. And remember, that even in my auction sales **I guarantee absolute satisfaction in every way or your money will be cheerfully refunded as well as any postage you have expended in returning lots.**

A coin in **proof** condition is one of that class which is prepared in the mint particularly for numismatic purposes. This is the highest state of condition imaginable and a coin in this condition has its maximum value. The planchet (bare piece of metal before struck) and dies are polished before the coin is struck (made) and this gives a burnished, mirror-

like, reflective surface. **Never try to polish a coin.** The only time this could be done, is before it was made.

A coin in **uncirculated** condition is one that is in just the same state or condition as when delivered from the mint. It must not be tarnished or blackened, but must have a splendid general appearance. The coin must be entirely desirable. Luster is usually abundant.

A coin in **fine** condition is one which shows to the naked eye no signs of wear. They may have become tarnished or blackened, but seldom are. As a matter of fact, a coin may have experienced considerable traveling and yet be classified as fine if it has been luckily in good hands.

A coin in **good** condition must show every feature very plain. Coins with part of the legend worn smooth are not good specimens.

A coin in **fair** condition is a piece which has been very considerably in use, but upon which the most of the lettering, design, and date is clearly readable. Moreover, the coin must be free from mutilation. If the surface of the piece has been worn down so smoothly that the design, legends, and date are not plain, or if there is a hole in it, or if it has been bent or is corroded or otherwise damaged, then such a coin cannot be classed as fair, as it is not as valuable.

J. W. Scott once said, "No two stamps if examined critically are exactly alike." I can say the same thing of coins. Therefore, it is necessary to use intermediate conditions as follows:

Extremely fine—with not enough, original mint luster to be classed as uncirculated.

Very fine—Fine, extra strong, well-struck, and desirable in general appearances.

Very good—Everything very plain and showing very little wear on any part. Just the highest parts of the coin are affected.

Very fair—Everything legible, but general appearance not worthy of the classification "good."

Other terms speak for themselves. Among these are poor, very poor, holed, scratched, bent, nicked, mutilated, polished, cleaned, tarnished, corroded, eroded, dented, rubbed, etc. These terms have the same meaning in relation to coins that they have in other usage. See Webster's Dictionary.

It is nearly impossible to improve the numismatic condition of a coin by any method, except in very rare cases, and then only at the hands of an expert. By this I mean that if a piece is worn or scratched, it can not be remedied by polishing. On the contrary, its condition may be lowered in degree.

PLEASE BID BY THE PIECE UNLESS STATED TO BID FOR THE LOT. Thus if there are 12 pieces in a lot and you wish to pay \$6.00 for the lot, then bid 50 cents. At each sale someone bids by the lot. Don't do this; bid by the piece.

Read Every Word in This Catalog or you are very apt to miss just what you want.

BRITISH CONDOR TOKENS

Note—These tokens or pledges of value, as they are sometimes called, were issued from 1787 to 1815, and put in circulation owing to the inadequacy of the regal coinage. This highly interesting series were origi-

nally described and numbered by the Rev. James Condor, and collectors consequently refer to them as the "Condor Tokens." In 1817 an act was passed which prohibited their manufacture and use, and persons who had issued any were obliged to redeem them by the end of the year.

Bids will be entertained for the entire collection No. 747 to 785 inclusive, or for the Penny Collection No. 747 to 773, or the Halfpenny collection No. 774 to No. 785, inclusive.

NEXT SALE WILL BE JANUARY 3

My 55th auction sale of rare coins will be held the first part of January, 1930. I already have a fine collection and several excellent consignments. Get your material in not later than Nov. 20 for this fine sale.

A COIN DEALER'S HOBBY

Years ago, before I devoted my entire time to the numismatic business and was engaged in the educational field, I used to turn to coins for my recreation and hobby. Now handling coins is a business with me, and other hobbies must be sought. Hunting and fishing are important ones with me. My best day recently was a rattlesnake hunt in the secluded hills east of Galena, Ill., when I was successful in bagging nine rattlers, five of which I brought home alive. The largest one that I took alive was 3 ½ feet long and had ten rattles and a button. It was a beauty of the golden-diamond species.
